Window Double hung, multi pane, glass

Dating Method(s) School history

Miscellaneous Information

Feature Preservation Recommendation(s) (Check all that apply):

- Individual nomination
- Contributes to a potential district
- No nomination potential
- Will not contribute to a district
- Potential district—feature would be a contributing element if other properties constitute a district
- Thematic nomination potential
- Component of a historic site or landscape
- Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, and spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility
- Historical associations require further investigation

1. Feature Description, Integrity, Eligibility:

The feature is a one room prairie school on a poured concrete foundation. The gable roof is finished with asphalt shingles with metal capping and finials at the peak. The chimney was replaced. The soffits are closed. The building measures 20 1/2 feet by 32 feet. The school was moved to it's current location some years after closure.

The siding begins with a rake board under the peak ends. The remainder of the siding is 6 inch wood lap with 6 inch wood corner trim, all recently painted. There are many windows in the school, a bank of seven multipane, double hung windows are located on the south side and 5 more simialr windows are located the north side, all glass intact. A solid core entry door was installed on the west side after the original entry was removed. The floor of the entry is the porch today. Newer siding was installed after the entry was removed. The east side has a large side sliding door for easy access for vehicles. The school was used as a shop. The walls are wallboard with wide trim boards at the floor. The sloped ceiling is finished with rectangular ceiling tile. The floor is tongue and groove hard wood. The old school lights still hang from chains in the school, evidence of electricity. Blackboards are gone.

This school opened for the 1939-1940 school term. It operated until the 1965-1966 school term ended.
