Feature Preservation Recommendation(s) (Check all that apply):

- Individual nomination
- Contributes to a potential district
- No nomination potential
- Will not contribute to a district
- Potential district—feature would be a contributing element if other properties constitute a district
- Thematic nomination potential
- Component of a historic site or landscape
- Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility
- Historical associations require further investigation

**NDCRS ARCHITECTURAL SITE FORM
PAGE 3—Feature Data**

Field Code White Ash Township School

SITS# 32 RV

Complete a Page 3 for each feature.

1. Feature Description, Integrity, Eligibility:

The feature is labled a school by the ND DOT and it is an intersecting gable roofed building that appears to look like it was a school at some point. I am thinking that it was used as a house. The intersecting gable roofs are covered with ashalt shingles. The soffits are closed. The east side has an entry that is very similar to a one room school and infact the gable roof is coverd with wood shakes. There is a concrete chimney located on the south slope of the entry roof and another red brick chimney on the west peak of the bulding. The siding is wood lap with wood corner trim. Windows are openings and look to have been mostly double hung. There are two windows on the north side, tow more windows on the east wide with a window in the entry, also facing east. The south side of the entry has a door opening as does the south side of the main body. One double hung window is near the west end of the south side and there is one more set of two windows on that south wall.
