**Complete a Page 3 for each feature.**

**1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school on a poured concrete foundation. The gable roof is covered with wood shakes with metal capping and finials at both ends. There is a small metal chimney at the east end of the roof. The soffits are closed. The building measures 38 feet east to west and 18 feet north to south.

There is a wide trim board under the soffits at the peak ends of the school. The remainder of the siding is 6 inch wood lap with 6 inch wood corner trim. There is a concrete step leading to the locked, plywood entry door. The entry walls are covered with beadboard and there is a double door leading from the entry into the main body of the school, both 5 panel doors. The interior walls of the school are covered with wallboard and the ceiling is lathe and plaster. The flooring is tongue and groove hardwood. There is a blackboard on 1/2 of the east wall. There are several double hung, two over two windows in the school, all intact glass. There are two windows on the west wall of the entry, 4 windows on the north side and 4 windows on the south side. A light fixture at the south east corner of the school as well as light fixtures suggest electricity.
