This is a one room prairie school sitting on a poured concrete foundation. Perhaps original location. The building has been completely clad in metal, hip roof is metal with metal capping, siding and corner trim is also metal. There is a hip roofed entry/bell tower over a door made of 4 inch wood plank at the northwest corner of the building. A concrete step leads to the entry door. There is a shed on the west wall of the school. The school is locked.

There are 5 windows on the south side and windows are original wood with newer screen widows covering them for protection. All glass is intact. Looking in the windows I could see that the flooring is tongue and groove, the walls are wide tongue and groove and some paneling. Ceiling tiles finish the space. There was electricity at one point as evidenced by light fixtures inside the school. Blackboard is on the east wall as well as 3/4 of the west wall. A door is set an angle in the northwest corner.
