**PAGE 3—Feature Data**Field Code Whittaker School #3SITS# 32 SH**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school with an addition to the southwest. The school was moved in 1975 and made into a garage. The school part of the building has fiber board 12 inch overlapping siding over wood lap. The roof has asphalt shingle on all but a small shed to the east. It looks like that shed (almost in the slough) was part of the original building. There is a chimney at the west end of the building that looks to be in fair shape. The windows are all covered or gone and according to the owner of the building all of the flooring was removed. Blackboards were on the northeast and east walls of the school. It was the last school open in the Whittaker Township, closing in 1961.
