Roof/Cornice Gable

Window Double Hung

Dating Method(s): School records

Feature Preservation Recommendation(s) (Check all that apply):

- Individual nomination
- Contributes to a potential district
- No nomination potential
- Will not contribute to a district
- Potential district—feature would be a contributing element if other properties constitute a district
- Thematic nomination potential
- Component of a historic site or landscape
- Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility
- Historical associations require further investigation

**NDCRS ARCHITECTURAL SITE FORM
PAGE 3—Feature Data**Field Code Lincoln Dale School \$3SITS# 32 SH**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school that was moved to its present location. The original location was 1/4 mile north of the Stein farm and it is used for storage as well as a garage. The roof of the building is covered with shakes and the chimney is intact brick, located near the north end of the school. The school measures 24 feet 4 inches north to south and 18 feet 4 inches east to west. Siding is 6 inch lap with 4 inch corner trim boards. 8 inch trim boards run under the peak ends of the roof. The double hung windows on the east side are intact and uncovered with storm windows on the outside. On the west side only one is uncovered. Metal sheeting covers the other two windows on the west side. The concrete foundation is crumbling under the west side of the building. The south end of the building was opened up for a garage door. There is a concrete apron leading into the school. The floor in the school is tongue and groove hardwood, walls are lathe and plaster with wainscoting running around all side. The ceiling is beadboard and light fixtures indicate electricity. At one point there was an entry on the school. Inside the building today, to the left of the garage door coat hooks remain with a shelf above for lunch boxes. The north wall shows areas where the blackboards used to be, either side of the remains of the stove pipe and chimney. This school closed in 1957.
