NDCRS ARCHITECTURAL SITE FORM
PAGE 3—Feature DataField Code Aura SchoolSITS# 32 SH**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room, wood framed, prairie school house on a concrete foundation. The school came from Hazel Grove Township in Burleigh County. It was moved to this location to be used in conjunction with the Ponderosa Saddle Club. The main body of the building measures 16 feet 4 inches north to south and 24 feet 4 inches west to east with the entry measuring 8 feet by 8 feet 4 inches. The roof is mostly covered with shakes, metal capping can be seen on both the school and entry. The chimney is gone. Soffits are enclosed.

6 inch lap siding covers the outside walls with an 8 inch header under all the peak ends as well the sides of the building. 6 inch wood trims the corners. The windows have all been replaced, it looks like the original window location was on the south side with additional windows added to the north.

The door leading into the entry has a small transom above it and the door itself has a pane of glass above three panels of wood. There is a concrete step leading into the school. Stepping into the entry the floor is tongue and groove hardwood with tile in the main body of the school. There is wainscot in the entry only. They put paneling over the lathe and plaster of the original walls. Most of the panel is falling down. The ceiling has been sheet rocked.

A light above the entry door as well as more lights inside and an modern electrical box outside indicate electricity in the building today.
