Complete a Page 3 for each feature.**1. Feature Description, Integrity, Eligibility:**

This feature is what is left of a one room prairie school. The roof has a few shakes remaining and many hole in the roof boards. The siding, or what is left of it, is wood lap siding with all the paint gone. There are no doors. There is a big opening on the north side of the school and perhaps the windows were located there. The opening gave access to the inside for maching storage. There is an entry door at the east end of the building. Very little left and as it was tilting at the time of the field work I suspect it has fallen down.
