1. Feature Description, Integrity, Eligibility:

This school is well described in the previous documentation. It was called Scenic School District #9 and it closed in 1959 at the end of the school year.

The bell tower is 4 feet by 4 feet and the original bell in in that cupola. The family has had to defend it several times.

The walls and ceiling are lathe and plaster. The floor is tongue and groove hardwood. The windows on the east side are largely intact and half of one has been boarded up. The two windows to the south have been boarded up. The school has a blackboard along the west wall. Electricity was updated after the school closed.

The building measures 30 feet north to south and 20 feet east to west. Propane was added as a fuel source after the school closed and it was converted by the owner to a woodwork shop.
