Complete one Page 2 for each architectural feature at the site.

Architectural Feature # 1

Construction Date Feature Type 9 Condition 5

Feature Date 3 Context 7 Plan Shape 5

Structural System 25 Primary Exterior 26 Style Other Style Hipped Roof Box

Original Owner's Ethnicity Secondary Exterior Architect/Builder

Other Information:

Foundation Poured Concrete Stories 1

Roof/Cornice Hip

Window Mostly missing, likely double hung

Dating Method(s): professional estimate

Feature Preservation Recommendation(s) (Check all that apply):

- Individual nomination
Contributes to a potential district
No nomination potential
Will not contribute to a district
Potential district—feature would be a contributing element if other properties constitute a district
Thematic nomination potential
Component of a historic site or landscape
Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility
Historical associations require further investigation

**NDCRS ARCHITECTURAL SITE FORM**  
**PAGE 3—Feature Data**

Field Code Bloomenfield Township SchoolSITS# 32 SN \_\_\_\_\_**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a wood framed one room prairie school on a concrete foundation. The wood sheathed roof is covered with wood shakes, perhaps 1/3 missing. There is metal corner capping on the 4 sloping seams, no capping at all on the top. There is a red brick chimney on the west slope of the hip roof. The eaves are have soffits enclosed with beadboard. The building measures 30 feet north to south and 20 feet east to west.

There is a porch on the south side with a fancy small gable roof held up by wood columns. There are halfwalls with lap siding either side of the concrete platform. Concrete steps lead up to this entry and about half a door. There is a center entry room with another door into the main body of the school. The coat rooms are to either side of the entry and are reached through doors from the main school room. There are openings, one covered and another half covered that were windows in the coat rooms. All glass gone. More windows were along the east side of the school and the windows are all gone. There is covering on the top half of the two north most windows and the other is just a gaping hole. The wall is falling out on the east side as well.

The floor in the school is hardwood tongue and groove. The walls are lathe and plaster with no wainscoting. Blackboard were on the west and north walls of the school room. The ceiling is lathe and plaster and much of it has fallen into the school. There is a fuel oil burner in the school. No evidence of electricity.
