**NDCRS ARCHITECTURAL SITE FORM  
PAGE 3—Feature Data**Field Code Riverside #2SITS# 32 ST**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school on a concrete foundation. The gable roof is covered with asphalt shingles on the north slope and wood shakes, with many missing, on the south slope. There is a concrete chimney at the west end of the peak of the roof. The soffits are open.

Siding is 10 composition/fiber board with failing paint on three sides and 6 inch wood lap on the south wall with 6 inch corner trim on this wall. There are two opening for windows on the south wall, one is a single window and the other double, some framing and no glass. The door is broken. The entry has a wood step and you are inside a small foyer. There are two small rooms to the left, a coat room as well as a bathroom. The main room of the school has a wallboard ceiling and the edges the of wallboard angle down to the walls. The walls are also wallboard with wainscot finishing them. There is a blackboard on the north wall. A furnace is still connected by stove pipes to the chimney. The floor is tongue and groove hardwood. Wiring and a meter give evidence of electricity.
