**Feature Preservation Recommendation(s) (Check all that apply):**

- Individual nomination
- Contributes to a potential district
- No nomination potential
- Will not contribute to a district
- Potential district—feature would be a contributing element if other properties constitute a district
- Thematic nomination potential
- Component of a historic site or landscape
- Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility
- Historical associations require further investigation

**NDCRS ARCHITECTURAL SITE FORM  
PAGE 3—Feature Data**Field Code Willow Lake SchoolSITS# 32 ST**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school on a concrete and railroad ties foundation. This building was moved to the farmyard for storage. The gable roof of the school is covered with wood shakes. There is a concrete chimney at the south end of the peak of the roof. The soffits are open. The building measures 20 feet north to south and 16 1/2 feet east to west.

The siding begins with a wide trim board under the peak ends of the roof with 6 inch wood lap siding and 4 inch corner trim to finish the siding. On the east side there are two small windows, one fixed 4 pane window and the other has no glass. On the west side there are also two small, fixed 4 pane windows, glass intact. On the south side of the building there is one double hung, multipane window near the west side of the school. On the north wall there are two large sliding doors that open to give access to the building for storage. There is a concrete apron that allows access. The floor is 8 inch planking and the walls and ceiling have been stripped out. No blackblards or wainscot. There are outlets and switches for light inside the building.
