**NDCRS ARCHITECTURAL SITE FORM**  
**PAGE 3—Feature Data**Field Code Latona Township SchoolSITS# 32 WA**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school on a rock and mortar foundation. The gable roof of the school is covered with ribbed metal sheeting. There is no chimney. Soffits are closed. The building measures 20 feet north to south and 18 feet east to west.

There is a wide trim board located under the peak ends of the roof. The remainder of the siding is 6 inch wood lap with metal corner capping. The 5 panel wood door is locked. There is a closed area above the door that was most likely a transom window. There are three shuttered windows on both the east and west sides. There are decorative cornices above all the windows. A light fixture above the entry door suggests electricity.
