**Feature Preservation Recommendation(s) (Check all that apply):**

- Individual nomination
- Contributes to a potential district
- No nomination potential
- Will not contribute to a district
- Potential district—feature would be a contributing element if other properties constitute a district
- Thematic nomination potential
- Component of a historic site or landscape
- Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility
- Historical associations require further investigation

**NDCRS ARCHITECTURAL SITE FORM  
PAGE 3—Feature Data**Field Code Vang Township School #1SITS# 32 WD**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school on a poured concrete foundation. The gable roof of the main body of the school is covered with failing asphalt shingles. The gable roof of the entry is partially covered with wood shakes, many have fallen away. There is metal capping with finials at the peak. The soffits are closed. The building measures 32 feet east to west and 16 feet north to south, inclusive of the entry.

There is a wide trim board under the peaks of the roof to begin the siding. The remainder of the siding is 6 inch wood lap with 6 inch wood corner trim. There are 4 shuttered windows on the south side, two on the north side and a double hung window on the north wall of the entry. There is a covered opening that may have been a smaller window on the west side of the entry. A locked 5 panel wood door is on the south wall of the entry. A concrete step leads to that door. Openings in the window covering showed wallboard on the ceiling and walls with no wainscot. The floor is hardwood. Wires and a meter holder on the east wall suggest electricity.
