**Feature Preservation Recommendation(s) (Check all that apply):**

- Individual nomination
- Contributes to a potential district
- No nomination potential
- Will not contribute to a district
- Potential district—feature would be a contributing element if other properties constitute a district
- Thematic nomination potential
- Component of a historic site or landscape
- Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility
- Historical associations require further investigation

**NDCRS ARCHITECTURAL SITE FORM****PAGE 3—Feature Data**Field Code SITS# 32 **Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school located on a farm site. I did not get close enough to observe foundation or anything inside. The roof of the school and entry are covered with asphalt shingles. A red brick chimney sits at the peak of the south end of the roof. Soffits are closed.

A rake board runs under the peak ends of the roof. the siding is 6y inch wood lap with 4 inch wood corner trim. there is an entry on the north side of the school, it is centered along that wall with a small shed attached to the north wall. A 5 panel wood door, with a piece of metal at the top 1/4, gives entry into the school. On the west wall of the entry are two small, 4 pane fixed glass windows. There are 4 double hung, windows on both the west and east walls of the school, most have glass. Shades are pulled to cover all the windows. No information for the interior.
