Roof/Cornice Gible

Window New, double hung with glass

Dating Method(s) Ward County Historical Society history

Miscellaneous Information _____

Feature Preservation Recommendation(s) (Check all that apply):

- Individual nomination
- Contributes to a potential district
- No nomination potential
- Will not contribute to a district
- Potential district—feature would be a contributing element if other properties constitute a district
- Thematic nomination potential
- Component of a historic site or landscape
- Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, and spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility
- Historical associations require further investigation

1. Feature Description, Integrity, Eligibility:

The feature is a one room prairie school sitting on a concrete pad foundation. The school was moved to this location in 2020 to be used as an exhibit building for the Ward County Historical Society. There is small storefront building just to the northwest of the school. A bit to the southeast there is a log cabin with open space all around the buildings. The entire village was recently moved to this location. The gable roof of both the school and entry are covered with asphalt shingles. There is no chimney. The soffits are closed.

The siding begins with a rake board at all the peak ends. The remainder of the siding is 6 inch wood lap with 4 inch wood corner trim. The siding is painted red with white trim. The school has three double hung windows on both the southeast and northwest sides. The windows are all new with intact glass. Two more similar windows are located on the side walls of the entry. A locked solid core door gives entry into the building. The interior of the school has been completely changed. All the walls have two by fours with insulation added and finished with sheet rock on both the ceiling and the walls. The floors are new planking. There are no blackboards in the building. There is electricity and very soon the building will be heated. This building will be used for a military display.

The school was built in 1902. In 1960 it was moved to a location north of Minot and attached to another one room school, Eureka School #4. They were updated at that time and made into two apartments. In 2010 it was used as a consolidated school for a few years. In the summer of 2020 the buildings were sold, separated and moved to the new location.
