Feature Preservation Recommendation(s) (Check all that apply):

- Individual nomination
- Contributes to a potential district
- No nomination potential
- Will not contribute to a district
- Potential district—feature would be a contributing element if other properties constitute a district
- Thematic nomination potential
- Component of a historic site or landscape
- Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility
- Historical associations require further investigation

NDCRS ARCHITECTURAL SITE FORM
PAGE 3—Feature Data

Field Code Pony Gulch School #2

SITS# 32 WE

1. Feature Description, Integrity, Eligibility:

Pony Gulch School #2 is simple one-room prairie school. It has been moved from its original location. It was moved 80 to 100 feet to the west to allow for Highway 3 right of way. The school orientation was also changed, the door was facing east and it now faces south.

The roof has newer three-tab shingles on it and the siding is vinyl today. The original windows, three on each side, were removed and replaced with modern windows when the siding was installed. There is no sign of a chimney. The flagpole is attached to the south end of the entry. The entry has one window and it looks to be the original size of the window opening with new glass. There is a concrete step at the door for entry.

As you step in the school, through a new door, the entry is mostly unfinished. There are coats hooks on the east wall, attached to the stud walls. On the west side of the entry is a door leading to the coal storage room. The main body of the school has the original flooring and a black board on the north wall. The remaining walls are all paneled. Electric baseboard heat was installed.

The original organization of Pony Gulch Township Schools was April 20, 1897 and there were 2 schools before June 30, 1989. Perhaps Pony Gulch School #2 was one of the two schools built after 1897.

The main body of the school measures 24 feet long by 18 feet wide. The entry measures 12 feet wide by 10 feet deep.
