This building is the entry/porch that was left in the original location of the entire school to be used as a township meeting place. The building has asphalt shingles on the roof and 6 inch wood, lap siding with 4 inch corner trim boards. It has relatively good paint. They have electricity in the building evidenced by wires going to the school. I did not go inside this building. The school was built in the 1880's and closed in 1959.
