1. Feature Description, Integrity, Eligibility:

This feature is a large, one room prairie school. There does not appear to be any foundation supporting the building and the interior floor is gravel. The hip roof is covered with asphalt shingles with metal capping and finials. The soffits are closed. There is not a chimney.

The siding is 12 inch masonite lap siding. There are two overhead garage doors in the building, one on the south side and another facing east. They used this building for a shop. The interior walls are mostly covered with plywood with a lot of the wainscot still on the walls. Half the ceiling has been stripped while the other half has plywood. There is a small 5 panel wood entry door on the south side of the building. There are two small, double hung windows facing south, all other windows were covered when siding got done. There was electricity present when the farm was operational.

4. Description of Access and Site Setting:

This building is located on a farm site. There is a large slough to the north, nearly into the school building. There are buildings to the southeast and southwest and all of it is surrounded by farm land and pasture. To reach this location you drive south of Highway 200 at 38th Ave SE. Drive south on 38th Ave. SE 7 1/2 miles to 5th St SE. Turn left onto 5th St SE and drive east about 3/4 of a mile to see the farm on your left.
