PAGE 3 – Feature Data****Field Code** Fram Township School**SITS#** 32 WEComplete one Page 3 for *each* architectural feature at the site.**1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school that was moved into town and placed on a poured concrete foundation. The building was reroofed with metal sheeting. The chimney is gone and soffits are open.

The siding is mixed with vertical metal sheeting on the west wall and 6 inch wood lap on the other three walls. 6 inch wood trim finishes the corners. There is a bump-out entry on the east side with a 5 panel wood door. A wood porch leads to the door. There are several double hung, multipane windows with four on both the north and south walls and two more to the left of the entry door. To the right of the entry door an overhead garage door has been installed. A light fixture over the entry door would indicate the presence of electricity at some point. I saw nothing of the interior.
