The feature is a one room prairie school on a concrete foundation, moved to this location to be part of a museum complex. The roof of the building is covered with ribbed, green metal sheeting. There are eaves troughs and down spouts on the roof. The soffits are closed. The building measures 24 feet east to west by 24 feet north to south. The entry measures 10 feet by 10 feet.

The siding begins with a wide trim board under the soffits at the peak ends of the school and entry. The rest of the siding is 6 inch wood lap with 6 inch corner trim. There is a locked plywood door reached by concrete steps and stoop with pipe railings to each side. A bank of 6 the windows on the north side of the school and one windows on the north side of the entry are shuttered. Wiring suggests electricity.
