**NDCRS ARCHITECTURAL SITE FORM
PAGE 3—Feature Data**Field Code Pleasant Valley Twsp SchoolSITS# 32 WI**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school on a poured concrete foundation. The hip roof of the main body, half hip of the south addition, mansard base/roof on the entry, the pyramidal roof of the bell tower and gable roof of the porch are all covered with wood shakes. There is metal capping and some finials. The bell tower is above the entry and there is a tall mansard roof that is the base for the top of the tower which is held up by 4 corner posts. At the peak there is a flagpole. The soffits are closed. The building measures 24 feet north to south and 30 feet east to west with the entry and porch measuring 12 feet by 8 feet and the south addition is 8 feet by 21 feet.

There is a wide trim board under the soffits on all sides of the school as well as the gable end of the porch. The remainder of the siding is 6 inch wood lap with 6 inch wood corner trim. The porch on the south side has a door opening leading to a 5 panel wood entry door. Just to the right of the entry are coatrooms and toilets. The main room of the school can be reached from a door straight in from the entry or another door at the southeast corner from the coatrooms. The interior walls are covered with lathe and plaster that is in tough shape. The walls have a picture railing trim on all walls. The ceiling is lathe and plaster which has been covered with wallboard, some of this falling into the school. The floor is tongue and groove hardwood and there are holes. There are three window openings in south addition, two double hung on the south wall and another on the west wall, no glass and little framing. There are three window openings on the north side and 4 on the east side, all large double hung, little framing, with transom window openings above all these windows. No glass anywhere. Blackboards have been removed, they used to hang on the west wall and the south wall of the school room between the doors. Wiring and fixtures suggest electricity.
