NDCRS ARCHITECTURAL SITE FORM
PAGE 3—Feature Data

Field Code Big Meadow Township SchoolSITS# 32 WI**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school on a poured concrete basement. The hip roof and half hip porch roof are covered with wood shakes. with metal capping. There is a large yellow brick chimney, with the top bricks falling off, at the peak near the east end. A hole in the roof on the east slope was most likley a dormer. The soffits are closed with beadboard. The school measures 36 feet east to west and 20 feet north to south.

There is a wide trim board under the soffits on all sides of the school. The siding continies with 6 inch wood lap and metal corner trim to the waterboard and skirting board. There are several small double hung windows in the basement, two on the west side, 4 on the south side, 1 on the east side and three on the north side. An outside stairway with a broken cover door leads into the basement. There is a wood door on the south side that looks to come in on a landing for interior stairs. The steps leading up to the entry door are gone, the wood rotted and fell in. There are halfwalls along the stairway opening with corner posts at the top that hold up the porch roof. The wood stoop remains and there is a 5 panel wood door with a transom above it. There are covered window openings on the east wall. A small double hung, multipane, window is near the east end on the north side. Further to the west, on the north side, are 5 large, double hung, multipane windows and much of the glass is broken or missing. The interior of the school has lathe and plaster on the walls with picture railing trim. The ceiling is also finished with lathe and plaster and it is falling away as is some of the wall. There are hangers on the ceiling that held lanterns. The floor is tongue and groove hardwood. The entry has doors to either side for coat rooms. A door near the outer wall at the south and north sides go into the school room from the coatrooms. On the school room wall between the south coatroom door and the entry door is one of the blackboards. There are more blackboards on the south wall and the west wall. There is wainscot throughout. No signs of electricity.
