**NDCRS ARCHITECTURAL SITE FORM  
PAGE 3—Feature Data**Field Code Winner Township School #1SITS# 32 WI**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school on a poured concrete foundation. The intersecting roof is covered with wood shakes that also cover the porch roof that extend of the south side of the entry. There is metal capping and finials. The soffits are closed. There is a stub of a red and yellow brick chimney at the north end at the peak.

There is a wide trim board under the soffits at the peak ends. The remaining siding is 6 inch wood lap with 4 inch corner trim. It appears that there was a shed of some sort on the north side of the entry as there is a door opening and the outline of a shed. There is a 5 panel wood door for entry. There are three windows on the north side, two covered and the third a double hung, two over two, windows with some glass. Did not see the east side as the land was posted. There is a covered window on the west wall of the entry and a round window opening above it with no glass. No wiring to indicate electricity.
