**NDCRS ARCHITECTURAL SITE FORM  
PAGE 3—Feature Data**Field Code Barr Butte Township School #2SITS# 32 WI**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school on a foundation of rocks and mortar. The intersecting gable roofs as well as the porch and shed roofs are covered with wood shakes with metal capping and finials. There is a red brick chimney at the peak at the west end of the school. The soffits are closed. The building measures 24 feet east to west and 16 feet north to south. The entry measures 10 feet by 8 feet and the shed is 10 by 10.

There is a wide trim board under the soffits at all the peak ends. The remaining siding is 6 inch wood lap with 4 inch corner trim. The entry door, reached by way of a wood stoop, is a newer, solid core door that is locked. The entry has beadboard walls and the door into the main room of the school is a nice 5 panel wood door. The addition at the southwest corner of the school was used for fuel storage, a hinged door hangs high on the west side. There are three covered windows on the west side. Three more double hung windows are on the north side and one of these is covered. All the uncovered windows have storm windows on the outside. There are decorative cornices above the windows and door inside the school. The walls are covered with wallboard and there is wainscot. The ceiling is wallboard tiles. The floor is tongue and groove hardwood. Blackboards are on the east wall as well as much of the south wall, to the entry door. There are light fixtures and wiring to suggest electricity. Two outhouse sit off the southwest corner of the school.
