## 1. Feature Description, Integrity, Eligibility:

The feature is a one room school sitting over a hillside. I did not see the foundation. It was moved to this location. The gable roof has few wood shakes left on the wood slats. The chimney is gone. The soffits are closed.

The siding begins with a rake board on the peak ends of the school. The remainder of the siding is 6 inch wood lap with 4 inch corner trim. There are numerous double hung window openings, 8 on the northeast side and 4 more on the northwest side. One is covered, another has a bit of framing and the rest have nothing. The entry has a wood door under a porch overhang. I did not get close enough to see the interior.
